AGENCY

COMPANY Gesellschaft für strategisches Ereignismarketing mbH was established in Frankfurt in 1989 by events expert Mario M. Flaschentraeger. Today, the agency's head office is located in Sinntal and it has subsidiaries in Frankfurt and Moscow, Russia. It has become one of the leading event agencies in Germany.

BROAD SPECTRUM - FULL-SERVICE

In the beginning, the focus of the Frankfurt agency lay in culture and performance artist events. Since then, the portfolio has expanded extensively: initially to conferences and incentives and then on to product launches, national and international press launches and award presentations. In recent years the sphere of activity, initially limited to Germany, has been extended to include other European countries, and today COMPANY enjoys its status of being one of merely a handful of agencies of its kind in the Russian and Baltic markets.

COMPANY sees itself as an all-round lead agency and DMC (Destination Management Company) focussed at all times on the success of the respective product and customer. Its portfolio comprises concept work, organisation and realisation, and thus covers the entire spectrum of a full-service provider.

COMPANY is a member of

NETWORK

COMPANY forms the core of a well-coordinated network which aspires to find solutions that satisfy all conceivable customer requirements and can be translated into creative productivity.

Day after day, COMPANY is confronted with extraordinary challenges. To master these requires a conglomerate of experience, good intention and the spirit to go new ways with the aim of developing solutions that are innovative and, in particular, anything but monotonous. Our project leaders are perfectionists who think as a network and always have the entire picture in mind. They plan, idealise, initiate and finally direct to feed life into "their" event with all their knowledge and experience. We use expertise to bring your ideas alive.

Supporting us in all this are our Russian colleagues in Moscow and numerous partners in Madrid, Florence, Lausanne and Cape Town.

AGENCY

"No man that does not see visions will ever realise any high hope or undertake any enterprise."

Thomas Woodrow Wilson (1856 - 1924), 28th president of the USA

To follow the philosophy of Thomas Woodrow Wilson in the attempt to bring life to visions, hopes and encounters is COMPANY's continuous goal.

For encounters involve the meeting of personalities at a particular place and a particular time for a particular reason.

Whether company, brand or product – those who provide a credible, authentic and convincing performance at encounters will awaken emotions. Emotions that lead to new dimensions in communication with the target group. Brand worlds must be experienceable, and images created or changed, for events to be successful and justifiable.

COMPANY vouches to realise concepts, ideas, plans and visions with you as the customer in mind and thus stage your company, your brand or your product in a unique and distinctive way.

PORTFOLIO

From Baiersbronn to Moscow, Capetown or Washington ... A product launch, an incentive or promotion, an opening event or a staff or sports event ... With or without VIPs: event management requires competent organisational talents with top contacts and strong nerves. Like those at COMPANY.

For over 15 years now we have been providing concepts, planning and implementing events, finding the right locations, coordinating service providers around the world, taking care of the technical side and the course of events right up to the final reporting. In a nutshell: everything to keep the customer satisfied, and, of course, customised to each company profile and budget. Great, award-winning ideas from XS to XXL. Try us and see for yourself!
